

NORWALK

PRESENTATION

Born in 2008 with the remaining members of the band Metamorpho'z, Norwalk is a French Metal band established in Isère, more precisely in Voiron, near the French Alps. The band is composed of: John (Lead Singer / Rhythm Guitar), Biff (Lead Guitars), Bans (Bass) and Jeff (Drums).

After a few line-up changes, the band is now complete and offers, for the past 5 years, some Prog Thrash Metal, inspired by the 90's biggest bands: Metallica, Pantera or Megadeth among others.

In 2011 comes the Band's first work, an Ep named Metamorpho'z as a reference for the band's origins, and is full of Heavy Metal + Old School Thrash. Norwalk starts to play live as a weekly / monthly basis on various scenes (Bars, Fests, contests, etc).

In 2016 comes their second Ep named Rebirth. With its 5 tracks, this CD is an obvious prof of the band's evolution and technique improvement. This realize came with an almost complete year of lives in different cities such as: Paris, Lyon, Grenoble or St Etienne.

Norwalk is always composing new material, but still feeds with lives and keeps looking for more and more ways to spread its music.
